Current Calls for Proposals from National, European and International Third-party Funding Sources
The Department 7 for Research Management of the University of Cologne organises in cooperation with the National Contact Point ERC a workshop on the ERC Consolidator Grants in Horizon 2020.

- ERC Consolidator Grants for researchers 7 to 12 years after their PhD
- Talks by Prof. Dr. Bettina Rockenbach, Vice-Rector for Research
  Dr. Claudia Breit, National Contact Point ERC
  ERC Grantee Prof. Dr. Gunther Döhlemann, Botanical Institute
  Panel Chair Prof. Dr. Manolis Pasparakis, Institute for Genetics/CECAD

Registration is open for researchers who will apply with the University of Cologne as host institution: https://verwaltung.uni-koeln.de/d7_events.

Social causes and effects of radical Islam in Germany and Europe

Aim
The BMBF intends to fund individual and collaborative projects in the social sciences, humanities and cultural studies that empirically and systematically investigate the social causes and effects of the rise of Islamism in its various manifestations in Germany and Europe and thereby create practice-relevant knowledge on how to counter radical Islam.

Research projects on the following topics as well as an accompanying scientific measure will be funded:

Field I: Social causes of the rise of Islamism in Germany and Europe
Field II: Social effects of Islamism in Germany and Europe

An accompanying project is to be funded which networks the projects of the funding line "Social Causes and Effects of Radical Islam in Germany and Europe" internally and externally, brings together scientific findings, supports the socially and practically oriented transfer of results and knowledge, and coordinates, develops and implements public relations activities for the funding directive.

Target Group
individual and collaborative projects in the social sciences, humanities and cultural studies

Duration
up to 4 years
accompanying project: up to 5 years

Funding
up to 100% of eligible project-related expenses and a project lump sum of 20% for universities

Deadline
22 January 2019 (submission of a project outline; two-step evaluation)

The call text does not specify the language in which the proposal is to be submitted. Please inform yourself before submission whether a proposal in English or German is required.

Zivile Sicherheit - Schutz vor organisierter Kriminalität II

Förderung

Forschungsfelder sind:

- grenzüberschreitende Kriminalität (zum Beispiel illegaler Handel mit Gütern, Menschenhandel, bandenmäßiger Diebstahl etc.);
- Produktion illegaler Güter und Fälschungen (zum Beispiel Kulturgüter, Medizinprodukte, Betäubungsmittel etc.);
- Finanzkriminalität (zum Beispiel Geldwäsche, Finanzierung der organisierten Kriminalität/Terrorismus etc.);
- Betrug (zum Beispiel Identitätsbetrug, Schwarzarbeit, CEO Fraud etc.);
- Strukturen der organisierten Kriminalität (zum Beispiel Clans, Rockergruppierungen und rockerähnliche Gruppierungen, mafiose Strukturen);
- Internet/Darknet als weiteres Medium der organisierten Kriminalität mit immer größerer Bedeutung (zum Beispiel virtuelle Marktplätze, Handel mit Zugangsdaten);
- neue oder sich wandelnde Phänomene, Strukturen und Märkte der organisierten Kriminalität;
- systematische, umfassende Analyse der organisierten Kriminalität in Deutschland.“

Zielgruppe
interdisziplinäre Verbundprojekte, bestehend aus mehreren Projektpartnern; die bilaterale Kooperation mit österreichischen Partnern ist erwünscht.

Förderdauer
d.R. 2 bis 3 Jahre

Förderhöhe
bis zu 100% der zuwendungsfähigen projektbezogenen Ausgaben sowie eine Projektpauschale in Höhe von 20% für Hochschulen

Fristende
15. Februar 2019 (Einreichung einer Projektskizze; zweistufiges Antragsverfahren)

Weitere Informationen
Webseite des BMBF
Künstliche Intelligenz in Kommunikationsnetzen

**Förderung**  
“Gegenstand der Förderung sind innovative Lösungen, die künstliche Intelligenz und Methoden des maschinellen Lernens in Kommunikationssystemen und -netzen einsetzen, damit diese den wachsenden Anforderungen der Zukunft gerecht werden.

a) Künstliche Intelligenz zum Management von Kommunikationsnetzen  
b) Künstliche Intelligenz zur Optimierung von Kommunikationssystemen

**Zielgruppe** interdisziplinäre Verbünde mit angemessener Beteiligung von Unternehmen

**Förderhöhe** bis zu 100% der zuwendungsfähigen projektbezogenen Ausgaben sowie eine Projektpauschale in Höhe von 20% für Hochschulen

**Fristende** 25. Januar 2019 (Einreichung einer Projektskizze; zweistufiges Antragsverfahren)

**Weitere Informationen** Webseite des BMBF

Small patients, big needs - Medical technology solutions for child-friendly health care

**Aim**  
The aim is to improve the health care of children along the entire care chain through innovative medical technology solutions that are specially adapted to the particularities of the physical and psychological development of the individual age groups.

The patient benefit for the respective age group as well as the advantages of the innovative medical-technical solution in terms of the purpose of the donation are to be presented in comparison to the care standard. In addition to the welfare of the child, the focus is also on relieving the burden on doctors, therapists, nursing staff and caring relatives. Therefore, the solutions to be developed must be designed in such a way that they can be seamlessly integrated into existing care solutions and existing workflows as well as therapeutic and nursing measures or replace them, for example for the care of congenital diseases, infectious diseases, degenerative diseases, autoimmune diseases, tumour diseases, mental illnesses, injuries caused by accidents as well as damage caused by poisoning, burns or burns.

**Target Group** industry-led, high-risk and pre-competitive R&D projects in the form of collaborative projects

**Duration** up to 3 years

**Funding** up to 100% of eligible project-related expenses and a project lump sum of 20% for universities

**Deadline** 31 March 2019 (submission of a project outline; two-step evaluation)

The call text does not specify the language in which the proposal is to be submitted. Please inform yourself before submission whether a proposal in English or German is required.

**Further information** website of the BMBF
Forschung für neue Mikroelektronik (ForMikro)

**Förderung**
“Es werden ausschließlich Vorhaben gefördert, die auf wesentliche **Innovationen in der Mikro- und Nanoelektronik** abzielen. Hierzu gehören insbesondere: (1) neuartige **Herstellungs-Prozesse**; (2) innovative **Materialsysteme** und deren Skalierung für den industriellen Einsatz; (3) neuartige **Bauelemente** und **Schaltungsarchitekturen**; (4) neuartige **Testumgebungen** und -**verfahren** für Prüfaufgaben; (5) neuartige **Werkzeuge** für Entwurfs- und Designautomatisierung; [...] von einer Förderung ausgeschlossen sind Vorhaben ohne ausreichenden Bezug zu neuen Anwendungen und Technologien in der Mikro- und Nanoelektronik [...].”

**Zielgruppe**
akademische **Einzel-** oder **Verbundvorhaben**; Voraussetzung: ein durch Beteiligung nachgewiesenes Interesse von **Unternehmen** an den Forschungsergebnissen. **NachwuchswissenschaftlerInnen** werden explizit zur Teilnahme ermutigt.

**Förderdauer**
max. 4 Jahre

**Förderhöhe**
bis zu 100% der zuwendungsfähigen projektbezogenen Ausgaben sowie eine Projektpauschale in Höhe von 20% für Hochschulen

**Fristende**
31. Januar 2019 (Einreichung einer Projektskizze; zweistufiges Antragsverfahren)

Funding of transnational collaborative projects in the field of biotechnology within the European Research Area-Net Cofund on Biotechnologies

**Aim**
In classical biotechnology, bioreactors with pure cultures of microorganisms or completely cell-free or enzymatic systems in solution are predominantly used. These processes [...] are mature and allow largely contamination-free production conditions. Under suitable conditions, natural microbial communities are often more efficient than these axenic cultures, but due to their complexity they sometimes make completely different demands on growth and cultivation conditions. Progress in metagenomics and metaproteomics has led to a growing understanding of such complex systems [...] so that the use of organism communities or their modification in terms of bioeconomic utilization appears promising.

With reference to this, project outlines are expected from the thematic area **A3 “Microbial communities”, natural or synthetic origin, mixed cultures and cascades of microorganisms**. The aim of the project outlines is to address research on novel and/or high-quality products and production pathways as well as on sustainable industrial processes in terms of bioeconomy.

**Target Group**
**international consortia** consisting of **at least 3 partners** from **3 different countries** participating in the call

**Duration**
up to 3 years

**Funding**
up to 100% of eligible project-related expenses and a project lump sum of 20% for universities

**Deadline**
14 December 2018 (submission of a project outline; two-step evaluation)

**Further information**
website of the BMBF
Cooperation with France involving science and industry ("2+2" projects) in research and development for a sustainable energy supply for Europe

**Aim**  Funding will be provided for collaborative projects that aim at highly innovative, cross-sectoral solutions for economically, ecologically and socially sustainable and secure energy storage and distribution in France, Germany and Europe. […]

**A. Conversion and storage of energy from renewable sources**
- Materials and technologies for electrical and electrochemical storage, in particular novel batteries,
- Storage systems for smart grids (e.g. grid services, virtual power plants),
- Power-to-X technologies including electrolysis, synthetic fuel production, photo-electrochemistry and solar fuels,
- Hydrogen and fuel cell technology, hydrogen storage and distribution.

**B. Smart Grids at transmission and distribution grid level**
- Materials and technologies for smart grids and high-voltage DC transmission,
- Flexibilization and network operation (including network architectures, digitization, storage integration, other flexibilization technologies),
- Cross-border aspects at technical and regulatory level (e.g. compatibility, regulatory frameworks, European energy market).

**Target Group** franco-German consortia consisting of at least one research institution or university and one company per country

**Duration** up to 3 years

**Funding** up to 100% of eligible project-related expenses and a project lump sum of 20% for universities

**Deadline** 9 January 2019 (submission of a project outline; two-step evaluation)

**Further information** website of the BMBF

---

**Regionale Informationen zum Klimahandeln (RegIKlim)**

**Förderung** “Ziel dieser Fördermaßnahme ist es, entscheidungsrelevantes Wissen zum Klimawandel in Kommunen und Regionen aufzubauen und eine breite Basis für maßgeschneiderte und verlässliche Klimaservices für die Anpassung zu schaffen.

Im Ergebnis sollen für Akteure auf regionaler und kommunaler Ebene Instrumente für die integrierte Bewertung von Klimarisiken und Wirkungsanalysen von Maßnahmen entwickelt werden. Diese sollen Grundlage für die Erarbeitung von Anpassungsstrategien schaffen, um die Vulnerabilität relevanter Sektoren gegenüber den Folgen des Klimawandels zu mindern."

**Zielgruppe** Verbünde von Forschungseinrichtungen und mind. einem Praxisakteur

**Förderdauer** bis zu 3 Jahre

**Förderhöhe** bis zu 100% der zuwendungsfähigen projektbezogenen Ausgaben sowie eine Projektpauschale in Höhe von 20% für Hochschulen

**Fristende** 31. Januar 2019 (Einreichung einer Projektskizze; zweistufiges Antragsverfahren)

**Weitere Informationen** Webseite des BMBF
Funding of international collaborative projects within the framework of the National Research Strategy Bioeconomy 2030 "Bioeconomy in the North 2018"

Aim
Specifically, research and innovation projects are to be supported that lead to new products and services from non-food/non-feed biomass resources and have a regional connection to Northern Europe. An important contribution to at least one of the following priority topics is expected:

1. production of biomass from forestry […]
2. conversion of lignocellulose from biomass resources […]
3. valorisation and governance strategies and policy instruments for the development of a sustainable bio-economy […]

Target Group
transnational collaborative projects with at least two partners from partner countries participating in the call for proposals: Germany, Finland and Norway

Duration
max. 3 years

Funding
max. € 750,000

Deadline
17 January 2019 (submission of a project outline; two-step evaluation)

Further information
website of the BMBF
Federal Ministry of Economic Affairs and Energy (BMWi)

ZIM: 4th Call for proposals for joint industrial research and development (R&D) projects between Germany and France

Aim  
“France and Germany are announcing a Call for Proposals for joint R&D projects, focusing on developing innovative products and applications in all technological and application areas. Applicants are expected to develop ready-to-market solutions for products, technology-based services or methods which have strong potential for the French, German, European and/or international market.”

Target Group  
consortia consisting of at least two companies from the participating countries (participation of research institutes/universities is welcome as additional participants or as subcontractor)

Duration  
up to 3 years

Funding  
for German universities: up to € 190,000

Deadline  
20 December 2018

Further information  
website of ZIM

ZIM: 9th German-Finnish Call for Proposals for joint SME R&D projects

Aim  
“Germany and Finland are announcing a Call for Proposals for joint R&D projects, focusing on developing innovative products and applications in all technological and application areas. In addition to the broad bottom-up approach, Business Finland would like to encourage SMEs coming from the manufacturing sector in Finland to submit their applications. Applicants are expected to develop ready-to-market solutions for products, technology-based services or methods which have strong market potential.”

Target Group  
consortia consisting of at least two companies from the participating countries (participation of research institutes is welcome as additional participants)

Duration  
up to 3 years

Funding  
as requested

Deadline  
15 February 2019

Further information  
website of ZIM
**ZIM: 4th Call for proposals for joint industrial research and development (R&D) projects between Germany and Canada**

**Aim**
"Germany and Canada are pleased to announce a Call for proposals for joint industrial R&D projects focusing on developing innovative products, processes, or technology-based services in all technological and application areas which have strong market potential."

**Target Group**
consortia consisting of at least **two companies from the participating countries** (participation of **research institutes** is welcome as **additional participants**)

**Duration**
up to **2 years**

**Funding**
as requested

**Deadline**
Mandatory **Canadian** Expression of Interest Deadline (for Canadian/IRAP applicants only): 30 November 2018
Optional **German** Project Sketch Deadline (for German/ZIM applicants who wish to receive advance feedback): 15 January 2019
Deadline for **joint projects**: 28 February 2019

**Further information**
website of **ZIM**

**ZIM: 2nd German-Swedish Call for Proposals for joint R&D projects by Small and Medium-sized Enterprises (SMEs)**

**Aim**
“Germany and Sweden are announcing a Call for Proposals for joint R&D projects, focusing on **developing innovative products and applications in all technological and application areas**. Applicants are expected to develop products, technology-based services or methods which will in subsequent steps generate sustainable solutions with **market potential** and potential to address societal challenges.”

**Target Group**
consortia consisting of at least **two companies from the participating countries** (participation of **research institutes** is welcome as **additional participants**)

**Duration**
up to **2 years**

**Funding**
as requested

**Deadline**
**13 March 2019**

**Further information**
website of **ZIM**
ZIM: Call for Proposals for Joint Research and Development Projects between German and Singaporean Companies

**Aim**
“Germany and Singapore are announcing a call for proposals for joint research and development ("R&D") projects, focused on the development of innovative products and applications in all technological and application areas. In particular, applications from the Medical Technology, Clean Technology, and Advanced Manufacturing sectors are highly welcomed. Applicants are expected to develop ready to market solutions for products, technology based services or processes which have strong market potential.”

**Target Group**
consortia consisting of at least two companies from the participating countries (research institutes are welcome as additional participants)

**Duration**
up to 2 years

**Funding**
as requested

**Deadline**
Submission of proposals is possible at any time.

**Further information**
website of ZIM

ZIM: 11th German-Israeli Call for Proposals for Joint R&D Projects

**Aim**
“Germany and Israel are announcing a Call for Proposals for joint R&D projects, focusing on developing innovative products and applications in all technological and application areas. Applicants are expected to develop ready-to-market solutions for products, technology-based services or methods which have strong market potential for Germany, Israel and Europe.”

**Target Group**
consortia consisting of at least two companies from the participating countries (research institutes/universities are welcome as additional participants)

**Funding**
as requested

**Deadline**
29 November 2018

**Further information**
website of ZIM

ZIM: Spanish-German Technology and Innovation Cooperation: Call for Proposals for Joint EUREKA Projects

**Aim**
“Spain and Germany are announcing this Call for Proposals for joint R&D projects, focusing on developing innovative products and applications in all technological and application areas. Applicants are expected to develop ready to market solutions or projects which have strong market potential for Spain and Germany.”

**Target Group**
consortia consisting of at least two companies from the participating countries (research institutes/universities are welcome as additional participants)

**Funding**
as requested

**Deadline**
11 January 2019

**Further information**
website of ZIM
Federal Ministry of Food and Agriculture (BMEL)

Rural areas in times of digitalisation

**Aim**
We are looking for research projects that explicitly deal with the specific opportunities, challenges and consequences of digitisation in rural areas of Germany. The following topics and questions, for example, may be in focus:

- **Economy and employment**
- **Changing social coexistence and rural environments**
- **Participation of different population groups in digital change**
- **Rural regional development**
- **Contributions of digitisation to services of general interest and ensuring the equivalence of living conditions.**

**Target Group** universities and other research institutes

**Duration** up to 3 years

**Funding** as requested

**Deadline** 15 January 2019 (submission of a project outline; two-step evaluation)

The call text does not specify the language in which the proposal is to be submitted. Please inform yourself before submission whether a proposal in English or German is required.

**Further information** website of the BLE

Contribution of ecologically and sustainably produced food to sustainable nutrition systems

**Aim** The Federal Office for Organic Agriculture and Other Forms of Sustainable Agriculture (GS-BÖLN) is looking for interested parties to carry out R&D projects and targeted knowledge transfer measures in the field of "food/nutrition", in particular in the following areas:

(a) **organic/sustainable food processing**
(b) the contribution of **organic farming** to **sustainable nutrition**
(c) quality of **organic/sustainable food products**

**Target Group** Collaborative projects with partners from practice, consulting, **science** and industry, especially with locations in rural areas, as well as systematic approaches are particularly welcome.

**Duration** up to 3 years

**Funding** as requested

**Deadline** 22 February 2019 (submission of a project outline; two-step evaluation)

The call text does not specify the language in which the proposal is to be submitted. Please inform yourself before submission whether a proposal in English or German is required.

**Further information** website of the BLE
Agricultural building with wood

**Aim**  
With the approach now pursued by the BMEL, it is intended to promote particularly innovative R&D projects for agricultural construction with wood as part of a call for proposals. Priority should be given to **new, innovative products or processes** that take into account the **specific conditions of agricultural buildings** are promoted. In addition, the funding is intended to fill gaps in knowledge and create a **broader data basis** in order to be able to analyse and evaluate agricultural construction comprehensively and holistically.

**Target Group**  
**scientific-technical** research projects, which lead to the expectation of new findings on agricultural building with wood

**Funding**  
as requested

**Deadline**  
31 March 2019

The call text does not specify the language in which the proposal is to be submitted. Please inform yourself before submission whether a proposal in English or German is required.

**Further information**  
website of the [FNR](#)
**German Research Foundation (DFG)**

DFG and Fraunhofer jointly support cooperation projects in the field of knowledge transfer

**Aim**
„The German Research Foundation (DFG) and the Fraunhofer-Gesellschaft jointly call for applications in the field of knowledge transfer. Trilateral transfer projects are funded by scientists from universities, Fraunhofer Institutes and application partners with the aim of closing the gap between basic research and application.“

**Target Group**
trilateral transfer projects with a university partner (DFG-financed), a Fraunhofer partner (Fraunhofer-financed) and an application partner (self-financed)

**Funding**
as requested

**Deadline**
12 December 2018

The call text does not specify the language in which the proposal is to be submitted. Please inform yourself before submission whether a proposal in English or German is required.

**Further information**
website of the DFG

---

**German-Israeli Project Cooperation**

**Aim**
„Participant institutions in Israel are invited to submit proposals which may come from all fields of science and research. Proposals shall be so designed as to be carried out in close cooperation between the Israeli and the German project partners. They must contain a description of the joint work plan for both, the Israeli and the German side. The quality of the research work and the strength of the scientific cooperation including the exchange of scientists, in particular early career researchers (PhDs/Postdocs), are the main criteria for the review and selection.“

**Target Group**
cooperation between the Israeli and the German project partners

**Duration**
max. 3 years

**Funding**
as requested

**Deadline**
31 March 2019

**Further information**
website of the DFG
**German-Argentinian Collaboration in Research**

**Aim**

„The Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) and the National Council for Scientific and Technological Research (CONICET) are pleased to announce the third call for proposals to fund joint German-Argentinian research projects in the following areas:

- Physical Chemistry
- Materials Science and Engineering
- Geosciences
- Neurosciences
- Molecular and Clinical Infectology and Immunology
- Social Sciences and Humanities“

**Target Group** joint German-Argentinian research projects

**Duration** max. 3 years

**Funding** as requested

**Deadline** 5 April 2019

**Further information** website of the [DFG](https://www.dfg.de)

---

**Taiwan-German Collaboration in Research**

**Aim**

„The Ministry of Science and Technology of Taiwan (MoST) has launched a new call for proposals in **all fields of science** in August 2018. […] This initiative aims to bring together relevant and competitive researchers from **Germany and Taiwan** to design and carry out collaborative research projects. Within these research teams, each national funding organisation will fund as a rule only those project components that are carried out within its own country.“

**Target Group** collaborative research projects

**Duration** max. 3 years

**Funding** as requested

**Deadline** 30 November 2018

**Further information** website of the [DFG](https://www.dfg.de)
UK-German Call for Proposals: Funding Initiative in the Humanities

Aim
"The UK Arts and Humanities Research Council (AHRC) and the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) hereby launch a competitive call for proposals with a view to bringing together arts and humanities researchers in the UK and humanities (including law and linguistics) researchers in Germany to conduct outstanding joint UK-German research projects."

Target Group
integrated UK-German projects

Duration
max. 3 years

Funding
as requested

Deadline
20 February 2018

Further information
website of the DFG

Priority Programme “Radiomics: Next Generation of Biomedical Imaging” (SPP 2177)

Aim
"Proposals submitted to this call should address at least one of the following fundamental aims:

- to adapt and implement existing image-analysis algorithms and/or advanced post-processing approaches for clinical and/or population-based research with proof-of-concept of clinical applicability;
- to determine the diagnostic value of “Radiomics”-based analysis and/or advanced post-processing of imaging data in different clinically relevant settings;
- to determine the prognostic value of “Radiomics”-based analysis and/or advanced post-processing of imaging data in clinically relevant settings."

Target Group
complementary, multidisciplinary teams with expertise in different fields, including clinical imaging, computational science, epidemiology and/or health technology assessment; inclusion of female applicants, clinician scientists, and early-career researchers is strongly encouraged.

Funding
as requested

Deadline
30 January 2019

Further information
website of the DFG
Priority Programme “Innate Lymphoid Cells” (SPP 1937)

**Aim**

- Proposals submitted to this call should address the following fundamental aspects:
  - Signals and molecular mechanisms controlling ILC differentiation, homeostasis, effector functions and adaptive properties of ILC; […]
  - ILC in tissue homeostasis and immunity in human and mouse
    Key issues here will be (1) to probe the role of ILC in organ homeostasis and tissue renewal (2) to analyse ILC in the defense against infections; (3) to interrogate the role of ILC in inflammatory diseases and in inflammation-driven diseases.
  - Developing cutting-edge tools and protocols for a rigorous analysis of ILC biology; […]
  - Other key issues will be (1) to develop and validate methods to visualise the specific localisation of ILC in situ, their in vivo behaviour and their network of interactions using imaging technologies such as Multi-Epitope-Ligand-Cartography (MELC) and intravital multi-photon microscopy; (2) to develop genetic tools for the specific and selective ablation/manipulation of ILC subsets; (3) to develop or apply tools for multidimensional analysis of ILC in the tissue context (e.g., single cell RNA-seq of entire tissues).
  - Interdisciplinary projects […]

**Target Group**

- Action A: collaborative research projects, gathering different research teams from min. 3 countries generating new knowledge in particular based on the production of new primary data;
- Action B: research synthesis projects, gathering individuals from min. 5 countries forming a working group which perform research and answer research questions using existing data sets

**Funding**
as requested

**Deadline**
30 January 2019 (registration in the elan portal until 23 January 2019)

**Further information**
website of the DFG
**BiodivERsA 2018–2019: Joint Call for Research Proposals on “Biodiversity and its influence on animal, human and plant health”**

**Aim**

16 funding organisations from 12 countries are joining this call and have provisionally reserved more than 9 million Euros for this call: Austria, Belgium (including specific participation of Wallonia and Flanders), Bulgaria, Estonia, France (including specific participation of Région Guadeloupe), Germany, Ireland, Lithuania, Poland, Romania, Slovakia, and Switzerland.

This call aims at supporting transnational research projects jointly addressing issues at the nexus of biodiversity and animal, human and/or plant health across the different relevant spatial and temporal scales in an effort to support evidence-based decision-making. Projects addressing only biodiversity issues or only health issues will not be considered within the scope of the call.

**Target Group**

**Action A: collaborative research projects**, gathering different research teams from min. 3 countries generating new knowledge in particular based on the production of new primary data;

**Action B: research synthesis projects**, gathering individuals from min. 5 countries forming a working group which perform research and answer research questions using existing data sets

**Funding**
as requested

**Deadline**
16 November 2018 (submission of pre-proposals)

**Further information**
website of the DFG

**Cultures of Archival Research in Germany and India**

**Aim**

“Archives are and have always been eminently important for historical research. They are recognised places for the production of knowledge, but they are also frequently questioned regarding their influence on the historians’ work. In what ways are archives instrumental in shaping the narrative, and can they act as transmitters of „historical truth“? It is to be expected that a critical analysis of archives will result in a better understanding of their structures, their collections, and also of their politics of selecting material and structuring information. […]”

In order to promote critical reflection on archives and their uses by historians, a transnational workshop is being planned which will take place in Germany: first in Marburg between 15 and 18 May 2019, and later in Berlin between 18 and 21 May 2019. The workshop will focus on theoretical and methodological concepts of archival work as well as its techniques in German and Indian archives.”

**Target Group**

“The workshop is particularly addressed to about 20 doctoral students and post-doctoral researchers from Germany and India who have already gained some experience in archival research.”

**Funding**
travel (economy flights), accommodation, and catering

**Deadline**
15 November 2018

**Further information**
website of the DFG
Priority Programme “Polymorphic uncertainty formulation for the numerical design of structures” (SPP 1886)

**Aim**

The priority programme calls for research in the following areas:

Complex A: **Data models, acquisition, assimilation and evaluation**
Complex B: **Structural Analysis** and **Numerical Design**
Complex C: **Interactions** and **multiphysical behaviour** with fuzzy data
Complex D: **Replacement** models and **reduction** methods

The priority programme aims at an integral consideration of methodological approaches and aims at the synthesis of different approaches in the conviction that barriers between representatives of different schools can be overcome through scientific exchange and that it will be possible to achieve a generalised scientific recording of the uncertainty of data and information in the numerical design of structures.

**Target Group**

Junior researchers with recently completed doctorates (postdocs) are encouraged to submit applications. **Tandem projects** with junior scientists and experienced scientists as subproject leaders are also expected.

**Duration**

3 years

**Funding**

as requested

**Deadline**

30 January 2019

**Further information**

website of the [DFG](https://www.dfg.de/en/index.html)
EUROPEAN RESEARCH FUNDING

Horizon 2020

On 25 July 2018, the European Commission published the updated work programme 2018-2020 for the EU Research and Innovation programme Horizon 2020. Current calls for proposals are available at the Participant Portal of the European Commission. The individual work programmes of the various funding lines can be viewed here.

ERC Consolidator Grant

Aim

“ERC Consolidator Grants are designed to support excellent Principal Investigators at the career stage at which they may still be consolidating their own independent research team or programme. Applicant Principal Investigators must demonstrate the ground-breaking nature, ambition and feasibility of their scientific proposal.”

Target Group

excellent researchers 7 to 12 years after their PhD; A competitive Consolidator Grant Principal Investigator must have already shown research independence and evidence of maturity, for example by having produced several important publications as main author or without the participation of their PhD supervisor.

Duration up to 5 years

Funding up to €2 million

Deadline 9 February 2019

Further information

website of the ERC
website of the Participant Portal

TETRAMAX 1st call on Entrepreneurial Technology Transfer Experiments (TTX)

Aim

“The overall goal of an Entrepreneurial TTX is to mobilize, challenge and train small teams of potential entrepreneurs in the CLEC space, thereby having a long-term perspective. Therefore, this TTX is solely devoted to the exploration and evaluation of market and business opportunities, for example for typical “start-up formation” scenarios and acquisition of investments in the longer term. The focus is on a critical and systematic evaluation and generation of sustainable business opportunities for new, possibly disruptive, actors in Europe’s digital technology markets.”

Target Group

team consisting of at least 3 distinguished team members: a Principal investigator, an Entrepreneurial lead and a Mentor

Duration 3 to 6 months

Funding between €20,000 and €30,000

Deadline 30 November 2018

Further information

website of TETRAMAX
Erasmus+

The annual call for proposals for 2018 was published on 25 October 2017. The following programme lines, among others, are now open:

**Strategic Partnerships**

**Aim** 
“Strategic Partnerships are transnational projects designed to develop and share innovative practices and promote cooperation, peer learning, and exchanges of experiences in the fields of education, training, and youth. Overall, strategic partnerships aim to address horizontal priorities as well as field specific priorities in the areas of: (1) Higher education, (2) Vocational education and training, (3) School education, (4) Adult education, and (5) Youth. There are two kinds of Strategic Partnership; those supporting innovation and those supporting the exchange of good practices.”

**Target Group** at least 3 organisations from different programme countries

**Duration** 2 to 3 years

**Funding** € 150,000 annually

**Deadline** 21 March 2019

**Further information** website of the European Commission Erasmus+ Programme Guide

**Knowledge Alliances**

**Aim** 
“Knowledge Alliances are transnational projects which bring higher education institutions and business together to work on common issues. The overall aim is to help strengthen Europe's capacity to innovate and to support the modernisation of Europe's higher education systems. Knowledge Alliances focus on one or more of the following:

- developing new, innovative, and multidisciplinary approaches to teaching and learning,
- stimulating entrepreneurship and the entrepreneurial skills of higher education and company staff,
- exchanging knowledge and working together on new solutions.”

**Target Group** consortium composed by min. 6 organisations from at least 3 Programme Countries of which least 2 must be higher education institutions (HEIs), and at least 2 must be enterprises/businesses

**Duration** 2 to 3 years

**Funding** max. € 700,000 for a two-year project; max. € 1,000,000 for a three-year project

**Deadline** 28 February 2019

**Further information** website of the European Commission Erasmus+ Programme Guide
Jean Monnet Activities

**Aim**
Jean Monnet Activities consist of six Actions that aim to promote excellence in teaching and research on EU studies around the world. The Actions are also designed to foster dialogue between academic and policy-makers on EU policies. There is also a specific emphasis on EU integration and the role of the EU in a globalised world, as well as promoting active citizenship and dialogue between people and cultures.

**Deadline** 22 February 2019

**Further information**
website of the [European Commission](https://ec.europa.eu/)
[Erasmus+ Programme Guide](https://erasmusplus.cedefop.europa.eu/)
FOUNDATIONS AND OTHER FUNDING BODIES

Volkswagen Foundation

World Knowledge – Structural Support for "Rare Subjects"

Aim “The so-called "rare subjects" ("kleine Fächer") often represent a comprehensive, significant and future-oriented canon of knowledge of high relevance for interdiscipli-
narity, internationality, and innovation. Their complex subject matter enable them to address issues from a multiperspectival view, thereby contributing in a crucial way towards a multi-layered exploration of the world and a holistic "world knowledge". At the same time, these knowledge domains are often characterized by precarious structures inside the universities. […]

In funding line 1 proposals may be submitted in the form of strategically oriented con-
cepts comprising different funding measures. The aim here is to promote the develop-
ment of cross-institutional international networks that are to form the basis for cooperative ventures beyond the funding period. […]

In funding line 2 the Volkswagen Foundation wants to encourage representatives of the "rare subjects" to try out innovative measures of communication, in which re-
searchers and the public engage in a mutual dialogue.”

Target Group tenured professors of the "rare subjects", together with representatives of the re-\nspective university management (funding line 1), professors, post-docs, or other academic staff of institutes (funding line 2)

Duration up to 7 years (funding line 1)

Funding up to € 1 million (funding line 1); up to € 100,000 (funding line 2)

Deadline 16 September 2019

Further information website of the VolkswagenFoundation

German Academic Exchange Service (DAAD)

PPP Programmes for Project-Related Personal Exchange: Egypt

Aim The PPP programmes aim at strengthening the academic relations between a Ger-
man institution and an institution abroad. Joint bi-national research projects of a high academic standard shall promote cooperative and preferably complementary re-
search activities and shall enable particularly young academics involved in the pro-
ject to conduct a research stay at the partner institution abroad, and thereby support them in their international training.

Target Group German-Egypt joint research projects

Duration 2 years

Funding Mobility and short-term stays for the exchange of university members of the partic-
ipating partner institutions, in particular young academics

Deadline 10 January 2019

Further information website of the DAAD
University Partnerships with Greece

**Aim**

The programme contributes to the *internationalisation of Greek and German universities* by initiating and consolidating *new partnerships* and *scientific cooperation* between German and Greek universities.

Funding is available for:

- Participation/implementation in/of workshops, strategy meetings, conferences, summer schools etc. to expand or deepen the partnership
- Study and research stays of German and Greek students, graduates and junior researchers (max. 6 months per person)
- Short-term stays and guest lectures (e.g. block lectures or seminars) by Greek university lecturers who hold a temporary teaching position at the German university.
- Short-term stays of German university lecturers at the Greek partner university
- Implementation of e-learning concepts etc.

**Target Group**

German universities

**Funding**

€ 80,000 per year for personnel costs for project implementation and supervision, research costs, mobility and living costs

**Deadline**

1 July 2019

The call text does not specify the language in which the proposal is to be submitted. Please inform yourself before submission whether a proposal in English or German is required.

**Further information**

website of the DAAD

---

German Scholars Organization e.V.

**Klaus Tschira Boost Fund**

**Aim**

“The Klaus Tschira Boost Fund supports excellent scientists by *accelerating careers* and making *research more flexible*. We do this by:

- granting *independent funding* to enable the realization of independent, innovative, riskier, and interdisciplinary projects,
- supporting the development of (international) *cooperation and networks*,
- providing support and advice for *professional and personal development*.

[...] We support scientists in the *natural sciences, mathematics, and computer sciences* at universities and non-university research institutions in Germany.”

**Target Group**

scientists during the *beginning and middle stages of their careers* (postdoc, junior research group leader, junior professorship, tenure track, etc.)

**Duration**

max. 2 years

**Funding**

up to € 80,000

**Deadline**

18 November 2018

**Further information**

website of the GSO
Funding for Junior Scientists

Fulbright Schuman Program

Grants for Post-Doctoral Research

Aim  „The Fulbright Commission for Educational Exchange offers approximately 35 scholarships annually for study, teaching and research in the United States at the post-doctoral level. [...] Grants are open to all academic fields of study, but must relate to U.S.-EU relations or EU affairs."

Target Group  postdocs with citizenship in an EU Member State

Duration  min. 3 months

Funding  round-trip travel, all expenses for an academic year

Deadline  1 December 2018

Further information  website of Fulbright

Society in Science

Branco Weiss Fellowship

Aim  „The Branco Weiss Fellowship – Society in Science is a unique postdoc program. It awards young researchers around the world with a generous personal research grant, giving them the freedom to work on whatever topic they choose anywhere in the world [...]. This research fellowship is designed to support postdoctoral researchers after their PhD and before their first faculty appointment. Those in current postdoctoral positions are also eligible. Ideally, fellows pursue unconventional projects in new areas of science, engineering and social sciences.“

Target Group  “You are eligible for the 2019 campaign if:

• You officially hold a PhD on January 15, 2019
• You were born after December 31, 1984
• Your project departs from the mainstream of research in your discipline
• You have a record of outstanding scientific achievement
• You demonstrate in the proposal a willingness to engage in a dialogue on relevant social, cultural, political or economic issues across the frontiers of your particular discipline”

Duration  up to 5 years

Funding  CHF 100,000 (about € 88,000) per year for i.e. salary and/or equipment, travel expenses, consumables, personnel, etc.

Deadline  15 January 2019

Further information  website of Society in Science
Deutsche Krebshilfe

Mildred Scheel Postdoctoral Program

Aim
The Dr. Mildred Scheel Foundation for Cancer Research awards postdoctoral fellowships to young physicians and scientists who want to carry out projects in the field of clinically relevant oncological basic research or clinical cancer research at renowned institutions abroad.

Target Group
postdocs max. 35 years old with experience in oncological research

Duration
2 years

Funding
stipend for accommodation and living costs adapted to the age and cost of living of the host country; marriage supplement if applicable; travel allowance for the scholar's outward and return journey and for family members; a start-up aid; monthly research and congress allowance.

Deadline
4 December 2018 (5 cut-off dates annually)

Further information
website of the Deutsche Krebshilfe

Deutsche Forschungsgemeinschaft (DFG)

Priority Programme “Radiomics: Next Generation of Biomedical Imaging” (SPP 2177)

Aim
“Proposals submitted to this call should address at least one of the following fundamental aims:

- to adapt and implement existing image-analysis algorithms and/or advanced post-processing approaches for clinical and/or population-based research with proof-of-concept of clinical applicability;
- to determine the diagnostic value of “Radiomics”-based analysis and/or advanced post-processing of imaging data in different clinically relevant settings;
- to determine the prognostic value of “Radiomics”-based analysis and/or advanced post-processing of imaging data in clinically relevant settings.”

Target Group
complementary, multidisciplinary teams with expertise in different fields, including clinical imaging, computational science, epidemiology and/or health technology assessment; inclusion of female applicants, clinician scientists, and early-career researchers is strongly encouraged.

Duration
2 years

Funding
as requested

Deadline
30 January 2019

Further information
website of the DFG
German Archaeological Institute (DAI)

Wülfing Stipend

Aim

“In 2019, the German Archaeological Institute will award a travel scholarship on the basis of the foundation of the same name established in 1928 by its honorary member John Max Wülfing, Saint Louis. This scholarship enables young scholars […] to spend eight months travelling through the countries of ancient culture for the purpose of generally broadening their knowledge.”

Target Group

junior scholars from the field of archaeology and its neighbouring disciplines who have completed their doctorates at a German university

Duration 8 months

Funding € 12,800

Deadline 15 January 2019

The call text does not specify the language in which the proposal is to be submitted. Please inform yourself before submission whether a proposal in English or German is required.

Further information website of the DAI

Travel Stipend

Aim

The German Archaeological Institute will continue to award travel grants to outstanding young researchers in 2019. They serve to promote young scholars in archaeology and its neighbouring disciplines.

The scholarship holders should acquire a good knowledge of the topography and above all of archaeological monuments and historical sites through a longer stay in the countries of ancient culture.

Target Group postdocs with German citizenship; candidates should not have exceeded the age of 30 when submitting their dissertation and 31 when the application deadline expires.

Duration 6 months or 1 year

Funding travel grant

Deadline 15 January 2019

The call text does not specify the language in which the proposal is to be submitted. Please inform yourself before submission whether a proposal in English or German is required.

website of the DFG

German Historical Institute Washington and the Roy Rosenzweig Center for History and New Media

Gerda Henkel Fellowship in Digital History

Aim

„Over the last few years there has been a stunning growth of new and exciting digital tools and methods that have the potential to augment and revolutionize traditional historical research. Historians have turned to data mining, GIS, and social network analysis – to name just a few […] – to analyze source material in innovative ways and to provide unique insights for their research. Scholars increasingly need to develop their own familiarity and facility with these new digital tools and approaches in order to take advantage of their potential for their research. As a means to build out that capacity, this fellowship is intended to support scholars who are perhaps new to digital history but are interested in developing new skills and methods that could aid their research as well as to support junior scholars already working in the field of digital history.”

Target Group

postdoctoral scholars and advanced doctoral students based in Europe

Duration 1 year

Funding

monthly stipend of € 3,400 for postdoctoral scholars or € 2,000 for doctoral students; reimbursement for the round-trip economy airfare to the U.S.; grant for travel to other North American institutions up to € 5,000.

Deadline 5 January 2019

PRIZES

An overview of the most important science awards is available [here](#).

Schering Stiftung

Ernst Schering Prize 2019

**Aim**

"The […] Ernst Schering Prize is one of the most prestigious German science awards. Given annually by the Schering Stiftung, Berlin, it honors scientists worldwide whose pioneering basic research has yielded new, inspiring models or led to fundamental shifts in biomedical knowledge.

**Target group**

individual scientists from Germany or abroad who undertake biological, medical or chemical basic research in the field of biomedicine and whose pioneering research has yielded new, inspiring models or led to fundamental shifts in biomedical knowledge.

**Endowment**

€ 50,000

**Deadline**

7 December 2018 (nominations submitted from firmly established researchers and scientists as e.g. holders of chairs, directors of clinics etc.)

**Further information**

website of the [prize](#)

Friedmund Neumann Prize 2019

**Aim**

"The award aims to make visible excellent scientific achievement and thus help the prize winners establish themselves in their field of research."

**Target group**

young postdocs with a distinctive scientific profile; excellent dissertation within the last 6 years; outstanding basic research in human biology, organic chemistry or human medicine

**Endowment**

€ 10,000

**Deadline**

7 December 2018 (nominations)

Federal Ministry of Education and Research (BMBF)

German-African Innovation Award

**Aim**
The Innovation Promotion Prize is awarded to researchers in African countries and their German partners for **proven outstanding research achievements with application potential** in connection with a utilisation or exploitation concept. The prize is awarded in the form of project funding to support the transfer of existing, convincing research results into use-oriented problem solutions, product-oriented exploitation and structure-building initiatives.

Funding will be provided for **collaborative projects** that preferably work on one or more of the following priority topics in international cooperation:

- environmental sciences,
- Health research,
- Bioeconomics,
- social development and social sciences (in particular socially responsible corporate practices, social innovations, sustainability concepts),
- Resource management (in particular, local valorisation of existing resources, resource efficiency and sustainability),
- Information and communication technologies.

**Target group**
German applicant together with at least one cooperation partner based in an African country; the participation of further partners with their own funds in the research project is possible.

**Duration**
2 years

**Endowment**
€ 150,000

**Deadline**
15 January 2019 (self-applications as well as nominations)

**Further information**
website of the prize

---

German Research Foundation (DFG)

Communicator Prize

**Aim**
"The Communicator Award is given jointly by the DFG and the Stifterverband […] Proposals from different research areas are appraised by a jury of science journalists and communication and PR experts according to the criteria of relevance, target group, originality and sustainability."

**Target group**
scientists and academics who have communicated their research findings to the public with exceptional success

**Endowment**
€ 50,000

**Deadline**
4 January 2019 (self-applications as well as nominations)

**Further information**
website of the prize
EUROPA NOSTRA & Creative Europe

EU Prize for Cultural Heritage / EUROPA NOSTRA AWARDS

Aim  
“The EU Prize for Cultural Heritage / Europa Nostra Awards […] has further strengthened the capacity of the heritage sector in Europe by highlighting best practices, encouraging the cross-border exchange of knowledge and connecting various stakeholders in wider networks. The Awards have also brought major benefits to the winners, such as greater (international) exposure, follow-on funding and increased visitor numbers. In addition, the Awards scheme has raised awareness of our shared heritage amongst the general public while highlighting its intrinsic European character. The Awards are therefore a key tool to promote Europe’s heritage.”

Target group  
“Outstanding research projects that lead to tangible effects in the conservation and enhancement of cultural heritage in Europe. The project must have been completed within the past 3 years: September 2013 – September 2016. If the study is a preliminary research carried out before a now completed intervention, please submit the entry as a Category Conservation project only.”

Endowment  
€ 10,000 each

Deadline  
15 November 2018

Further information  
website of the prize
DFG: Possibility for German-American Collaboration within SSRC’s Media & Democracy Program
“Researchers eligible for DFG funding have the opportunity to liaise with the SSRC’s Media & Democracy program to organise joint conferences, make connections with North American scholars with similar interests, and build international scholarly networks. In order to establish a basis for a joint research initiative between German researchers and their North American colleagues, researchers being eligible at DFG can submit joint international proposals within the regular funding instrument "Initiation of International Cooperation", which could for example be used to apply for exploratory workshops (alone or in combination with guest visits in either direction).”
Further information is available here.

DFG: "Research Explorer" is now "GERiT" - Extended information on 25,000 German research institutions
"The Internet portal "GERiT - German Research Institutions" (www.gerit.org) of the German Research Foundation (DFG) contains information on over 25,000 institutes at German universities and non-university research institutions in German and English. It thus provides interested parties in Germany and worldwide with rapid and differentiated access to the German scientific landscape.”
Further information is available here.

European Commission publishes mid-term review of Horizon 2020
In its short report "From Horizon 2020 to Horizon Europe", the European Commission presents figures on the first four and a half years of the Horizon 2020 funding programme and draws comparisons with the 7th EU Research Framework Programme. It also gives an outlook on "Horizon Europe", the follow-up programme to Horizon 2020. (Source: Newsletter EU Office of the BMBF)
Further information is available here.

ELectronic Research Funding Information System (ELFI)
In addition to the individual funding search by the staff of Department 71, the comprehensive ELFI funding database is available to researchers at the University of Cologne free of charge.
Further information is available here.
07.11.2018
ERC Consolidator Grants in Horizon 2020
The Department 7 for Research Management of the University of Cologne organises in cooperation with the National Contact Point ERC a workshop on the ERC Consolidator Grants in Horizon 2020. Information on the general principles of the ERC, the current call and useful tips from a successful Principal Investigator and an ERC Panel Chair will be provided.

The workshop addresses researchers with 7-12 years research experience since completion of their PhD and with a scientific track record showing great promise. With an ERC Consolidator grant you can build up or consolidate your own research group over 5 years with max. € 2 million. The workshop addresses those researchers in particular who aim to submit their proposals in this year’s ERC Consolidator Grant call.

Place: GATEWAY of the University of Cologne
